SpecialtyCare OptimizeOR™
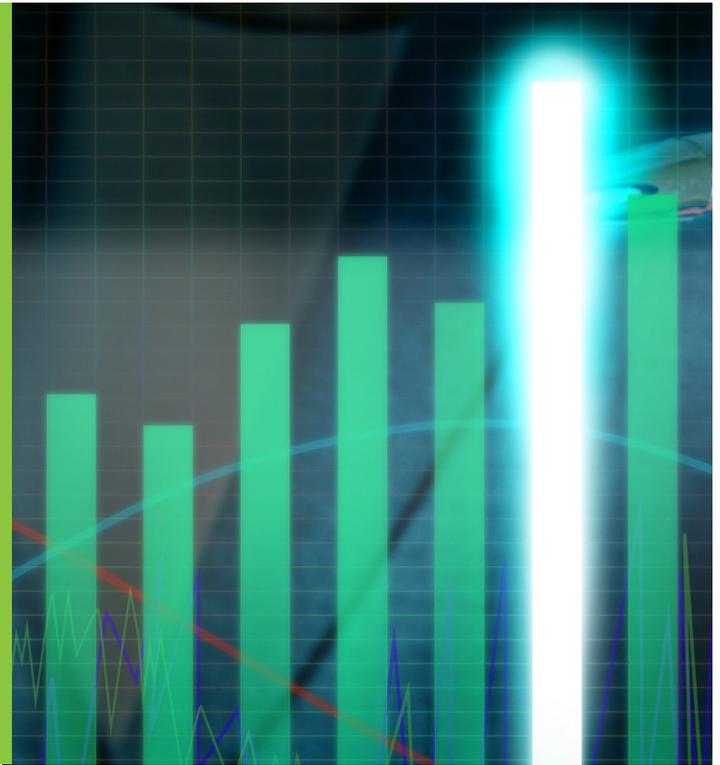

With OptimizeOR, customers improve perioperative performance through OR decision support and analytics. OptimizeOR is an online application that enables perioperative leaders to optimize their staff and OR utilization and standardize supplies and implant use across surgeons. Users have access to key performance measures and can easily manipulate powerful analytics to gain actionable insights and produce presentation-ready materials specifically designed to drive and display financial and clinical improvement. OptimizeOR helps customers grow surgical volume, increase productivity, and improve patient and surgeon satisfaction.

UNPARALLELED VALUE

SpecialtyCare is proud to offer OptimizeOR, the industry-standard perioperative analytics tool powered by Syus and AORN Syntegrity®. SpecialtyCare selected Syus after witnessing the unparalleled value it provides several of the hospital customers we share. OptimizeOR has access to the nearly 4 million surgical cases in the Syus database. Using that data alongside SCOPE, the SpecialtyCare Operative Procedural Registry®, the largest allied health database of its kind, gives SpecialtyCare customers an unmatched ability to determine benchmarks, implement best practices, and compare performance for improved medical and economic outcomes.
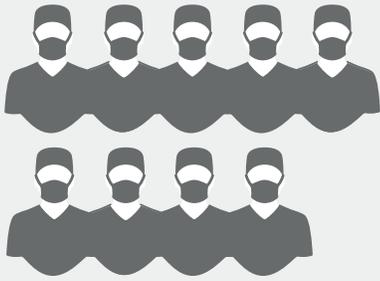

SpecialtyCare®

PROVIDING THE CERTAINTY OF CLINICAL EXPERTS

9 out of 10 customers say that SpecialtyCare positively contributes to the quality of patient care, that we are an integral part of their OR team, and that their surgeons are pleased with the quality of our service. We value ongoing training, education, and data-driven research and innovation. In fact, our team of nearly 2,000 clinical professionals and support staff is the most highly certified and advanced degreed group of its kind. It's all part of our commitment to provide you with the certainty of exceptional care.

HOW IT WORKS

- Use OptimizeOR with any EHR system
- Get started quickly—program implementation takes days, not months
- Save learning time with intuitive software interface designed for clinicians
- Select key variables and measures in your data warehouse—such as surgeon, procedure type, concurrency, room turnover time, case length, and on-time starts—to assess performance and identify areas for improvement
- Filter by various time spans, from 15-minute intervals to days, weeks, and months
- Adjust thresholds on measures for targeted goalsetting and analysis
- Identify trends with easy-to-understand graphics that include color-coded notifications highlighting areas of particular interest
- Save favorite report settings for ongoing use and benchmarking
- Export report findings and charts to share performance with teams, surgeons, and administators
- Save time with personalized, presentation-ready materials

POWERFUL DECISION SUPPORT

- OptimizeOR eliminates the hard, endless work of getting the information you need to run your OR efficiently and effectively
- Key information (generated by your EHR, supply, and HR systems) is validated and tied together in a single, secure data warehouse
- Powered by our calculation engine, OptimizeOR's online dashboard and analytics enable you to explore curated performance measures to make better data-driven decisions, share insights, and engage surgeons and administrators in tailored improvement efforts

IMPROVE PERFORMANCE

Today, you need reliable, proven partners who align with your goals, who care as much about your patients and your success as you do. Delivering higher value healthcare is a top priority, and the key to better value is providing patients with the best quality care and outcomes while avoiding and reducing costs. Our customers know this. It's why more than 1,000 hospitals trust us to help them achieve exceptional care, regulatory compliance, and financial results. We've been dedicated to improving value in perioperative care for three decades.

PUTTING PATIENTS FIRST

Over 1,000 times every day, our dedicated experts are entrusted to help someone's parent, or child, a loved one, or a friend, to live a better life. Contact us and discover why hospitals partner with SpecialtyCare to transform their services and improve the value of healthcare delivery.
